WHY CHOOSE REFLEXION?

Reflexion saves you time. Spend more time doing what you do best - managing your school - and let our professional team do the work for you. From our standard range of furniture to our custom pieces, Reflexion provides a one-stop shop solution. You don't have to look for a designer, consultant or construction contractor. Reflexion has extensive experience and understanding of the education market. Within Australia, Reflexion have successfully completed over 170 projects in both rural (47%) and metropolitan regions (53%) utilizing our furniture. Reflexion can also extend beyond your furniture requirements to provide a full design and construction service for your outdoor areas.

Reflexion also has experience with projects outside the education market. Projects include: Parks Victoria, Local and Regional Shire Councils, Sporting Clubs, and furniture retailers. Reflexion focus on improved teaching and learning.

All furniture designed and manufactured by Reflexion is visually pleasing but more importantly, create environments that can be utilised to improve behavior, play, teaching and learning. Our custom designed furniture can take into consideration your existing facilities and tailor your environment to suit your school's curriculum.

Safety is an imperative. All Reflexion projects are engineered to comply with relevant Building Codes of Australia and follow Reflexion procedures on all OH&S requirements to ensure safety at all times whilst on site. All our furniture is guaranteed.

Reflexion guarantees that all materials and structural components provided will be free of defects according to normal tolerances of the construction industry. For any problems, please call our friendly team on 9800 0755.

JARRAH TIMBER

All our Jarrah is supplied from sustainable forests that are managed by the Forests Products Commission. This means that there are always more trees being grown than harvested.

Jarrah is a highly durable and dense hardwood timber, renowned for its strength and versatility. It varies in colour from a rich reddish brown to a salmon pink and has an attractive natural grain.

Jarrah is recognised as one of the finest general purpose hardwoods in the world and is used to make high grade furniture, flooring, decking and joinery. Its resistance to damp, dry rot, fungal growths and fire also make it a sought after structural timber.

KY PIC 2000

\$ 1,590 + GST \$ 159 - \$ 1,749

1950L x 1900W x 735H

Jarrah timber

Galvanised steel frame

Finished with natural decking oil

Our signature piece of furniture. Great for entertaining at home and ideal for schools. Designed to seat 8 adults or senior students or 12 junior students. Research confirms this as an anti-bullying configuration. Three KyPic 2000's will seat a senior class size of 24 students. Ideal for group based learning, story telling, team teaching or as a casual area for eating. Combining wireless technology they can be used with laptop computers as a computer lab. Designed to be placed outdoors they maximize the high performance based design patterns such as daylighting, natural ventilation and full spectrum lighting. The galvanised steel frame and jarrah tops provide for a hard wearing unit which is comfortable during both hot and cold weather.

There are 3 sizes in the Ky Pic Range:
KY PIC: Senior School Students
MY PIC: Middle Years Students
K4 PIC: Kinder to Year 4 Students

KyPic 2000 – additional umbrella; Quote supplied on request.

In the absence of a shade sail or solid roof structure adding the optional sun umbrella the KyPic 2000 becomes a sun smart addition to your outdoor area.

Finished with natural decking oil

A dedicated seating unit, the KyBench 1650 or KyBench 1650B (below) which includes a back, is also made from galvanized steel and jarrah. These units are designed to cater for smaller areas, and smaller group learning. Peer tutoring, team collaboration work in small groups, technology based learning with mobile computers, or even private seating. Two or three KyBenches could be arranged to create a campfire space, a watering hole or a cave space catering for learning based on these design patterns. Alternatively they could also be used as a casual eating area.

The Amphitheatre has long been noted as providing for the greatest number of learning modalities to suit all of the students varying multiple intelligences. From independent study, to team collaboration, project based learning, seminar style teaching, story telling and performance based learning the amphitheatre does it all. And the KyAmphitheatre modules allow the creation of an amphitheatre as small or large as your budget and space allows. Once again based on our galvanized steel frame and jarrah timber tops the KyAmphitheatre will be the learning area preferred by the teachers, enjoyed by the students and built to last the test of time.

An alternative to the KyPic 2000. Styled slightly differently and great for entertaining at home and ideal for pub & cafeteria type environments.

KyPub 2000 – additional umbrella; Quote supplied on request.

In the absence of a shade sail or solid roof structure adding the optional sun umbrella the KyPub 2000 becomes a sun smart addition to your outdoor area.

KY BIN

TOP FILL BIN or SIDE FILL BIN

\$1,500 + GST \$150 - \$ 1,650

240 litre bin size

120 litre also available on request

Galvanised steel frame & Jarrah timber finished with natural decking oil

The KyBin is in keeping with the Ky range of furniture. Allows for a waste receptacle to be placed in the area where it will be used, all without the far too often poor appearance. Use several side by side to separate recyclable, non recyclable and compostable rubbish. Why not use the rubbish bin as the starting point for a journey into a 3D learning environment for nature based themes? Galvanised steel and Jarrah from sustainable sources – all recyclable within themselves – create the KyBin.

KY PLANTER BOX

\$800 + GST \$80 - \$ 880

600L x 600W x 600H

Jarrah timber

Galvanised steel frame

Finished with natural decking oil

This unit was designed to further extend learning by the creation of a 3D classroom. The KyPlanter box can be used to grow plants both floral and edible to allow study of nature and food. This caters very well to students which are naturalist in intelligence. Aligning a series of the KyPlanterBoxes along a deck creates a safe edge and doubles to soften the appearance.

KY HANDRAIL

\$ 220 + GST \$ 22

- \$ 242 per lineal metre

Based on the same hard wearing Galvanised steel and Jarrah construction the KyHandrail is designed to compliment the use of the Ky range of furniture. Surround your area, create cave spaces and individual areas. The KyHandRails design allows for the separation of areas, whilst still maintaining transparency.

CUSTOM FURNITURE

As we manufacture all of our furniture in our Bairnsdale Office, we are able to cater for any variation in design which you may require, or to create a dedicated piece of furniture to cater for an individual area. Reflexion Design and Construction do not only sell the standard range – we are Flexible to your needs.

ART PANELS

\$ 900 + GST \$ 90 - \$ 990

1200W x 1200H / 1200W x 1800H

Marine Ply

Galvanised steel frame

The art panels are a new addition to the range of furniture from Reflexion Design and Construction. Designed around the need to provide brain based areas and separate areas whilst still maintaining transparency.

The art panels are designed to be modified by the students to create a sense of home base, personal identity, a connection to the community through artwork and form a welcoming entry to an area which features the students personality. Perfect for students to express their individual intelligences. The art panels can be repainted for new works of art – after permanent photographic records are taken.

TRIBAL SEATING

500 W x 450H x VARIABLE L
